Rescuers Embarrassed

New York.- Police converged on Manhattan Bridge recently and one of them climbed toward a man perched 40 feet up on a girder. Half way up, the police officer persuaded the percher-in-peril to come down.

"Why did you do it?" the police asked Edward J. Haggerty, 50.

"Because it's my job," he snapped. "I'm an inspector in the Department of Public Works, and I have to look over the steel work every Thursday."

So the police went away and Haggerty climbed back up among the girders.

Invite Wife to Office

Los Angeles.- That's what the man said — encourage your wife to visit your office: it'll make for a happier home.

Author of this advice is Professor James A. Peterson, marriage counsellor at the University of Southern California.

"Married couples today are in effect leading two separate lives," Peterson says. "Wives must get better acquainted with the husband's work . . some insight into the pressures under which he works. And it will bring husband and wife closer to leading one life together."

ANY DIRTY MONEY?

Wichita, Kan.- In 21 years Mrs. Hortense Simmons has laundered more than 1,000 one-dollar bills and one $5 bill. She is an employee of the city's department of finance.

She says: "I just can't stand to handle filthy bills. When I get a dirty bill, I take it and scrub it good, dry it between two paper towels, and put it with the rest of the money I handle every day."

Mrs. Simmons handles all money that he city takes in. Wichita bank officials say that they never receive dirty money from the city.

REGULATION ON WHEAT

An amendment to the wheat regulations has extended the date by which farmers may make application to grow as much as 30 acres of wheat in 1958 under the Feed Wheat Program.

The final date for filing feed wheat applications in Appomattox County is June 6, Floyd Fleshman, chairman of the ASC county committee, has just announced. The applications, which will be signed at the county ASC office, contain certain provisions which must be met by producers to be eligible under the Feed Wheat Program.

Applications must be signed by each producer having interest in the wheat crop; the crop must be used on the farm where produced for seed, feed, or food; none of the wheat may be sold, bartered, or exchanged, nor will it be eligible for price support. The livestock or poultry to which the wheat is to be fed must be owned by the farm owner or operator and none may be rented except for processing.

If wheat produced under this program is grown for feed or flour, the entire product including by-products must be returned to the farm where produced. The farmer may not pay wheat toll for milling services, nor may the flour or by-products be sold. No marketing card will be issued to a farm operating under the Feed Wheat Program.

Producers who sign applications under the Feed Wheat Program may not vote in the referendum on wheat quotas for 1959.

Mr. Fleshman strongly stressed the fact that exemption under the Feed Wheat Program is not automatic and any producer to be eligible must sign an application with the ASC county office no later than June 6. The provision permitting any farm to produce and market as much as 15 acres of wheat still remains in effect for producers not participating in the Feed Wheat Program.

The ASC chairman urges any farmer who is interested in the program to call at the county office and have full details explained before he signs an application.

Memorial poppies which will be worn here on Poppy Day, May 24, have been received by Unit 104 of the American Legion Auxiliary from a veterans hospital where they were made by disabled veterans.

The little red flowers were being made ready for distribution by volunteer workers of the Auxiliary.

"The memorial poppy is a crepe paper replica of the wild European poppy which bloomed in profusion on the world war battlefields and cemeteries in France and Belgium," Mrs. Clifford Harvey, Auxiliary president, explained. The World War I poem, "In Flanders Fields," told the world about these poppies, and soon after that war the poppy became the memorial flower for the war dead throughout the English speaking world."
